6th March 2016
Townsville,

Dear council candidate,

Would you share your views on cycling in Townsville with the Townsville Bicycle User Group (and the wider community)?

Our group campaigns for safer more direct and connected routes, encouraging people to cycle more often and has become the point of call for media looking for comments on anything cycling. Visit our [webpage](#) for more information.

We have provided questions below for your consideration:

1. Do you ride a bike?
2. What do you think of the cycling conditions in Townsville?
3. Do you think cycling plays an important role in infrastructure in the future of Townsville?
4. What is your plan to improve cycling in Townsville?
5. Have you supported cycling in the past?
6. Surveys show that lack of workplace facilities are a major barrier to riding to work. How would you encourage local businesses to improve their end-of-ride facilities?
7. What do you think of the Townsville Bicycle User Group?
8. Will you support calls for a dedicated Cycling Officer within city Council to assess the entire transport network, gathering statistics of time of travel and plan for safe, direct and connected cycleways?

Your responses will be posted on our website and facebook page to the benefit of our members.

Thank you very much and best wishes for your election campaign.

Kind regards

The Townsville Bicycle User Group

President Eddie Symonds

Vice President Rebecca Ryan

Treasurer Leonie Jones

Secretary Dr Robert Teunisse
